[A] Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

[B] Entry wage is defined as the mean of the lower third of the population

[C] Mean wage is the average of all reported wage for the occupation

[D] Experienced wage is defined as the mean of the upper two-thirds of the population

The Average wage is the average wage for all workers in the occupation. The Entry wage is the 25th percentile wage--25% of workers are paid that wage or less. The Experienced wage is the 75th percentile wage--75% of the workers in that occupation are paid that wage or less. When anything other than hourly wages were reported, the wages were converted to an hourly rate based on a 40-hour work week.

[2] Wage rates for this occupation are not available.
